Alliot, J. **120**, 95
Amenta, F. **120**, 33, 65

Barbanti, P. **120**, 65
Bertolucci, P.H.F. **120**, 57
Boghossian, S. **120**, 95
Borsatto, B. **120**, 57
Bridgeman, C.J. **120**, 23
Bronzetti, E. **120**, 33, 65
Bruno, G. **120**, 65

Campbell, W.W. **120**, 45
Cerbo, R. **120**, 65
Chen, T.S. **120**, 127
Crossman, D. **120**, 23

da Silva, A.M.Â. **120**, 57
Denyer, S.P. **120**, 23
Dupont-Versteegden, E.E. **120**, 45

El-Assouad, D. **120**, 33
Evans, W.J. **120**, 45

Fabbrini, G. **120**, 65
Faragher, R.G.A. **120**, 23
Felici, L. **120**, 33
Francis, S.E. **120**, 23

Gershon, D. **120**, 1
Gershon, H. **120**, 1
Greco, S. **120**, 33

Higuchi, K. **120**, 87
Honda, Y. **120**, 87
Hosokawa, M. **120**, 87

Itzev, D.E. **120**, 77
Izmaylov, D.M. **120**, 141

Jozsi, A.C. **120**, 45

Kalashnik, L. **120**, 23
Khavinson, V.K. **120**, 141
King, A.R. **120**, 23

Lang, C.A. **120**, 127
Lightle, S.A. **120**, 111
Lolova, I.S. **120**, 77
Lolov, S.R. **120**, 77
Luigi Lenzi, G. **120**, 65

Malinin, V.V. **120**, 141
Mariotta, S. **120**, 33
Matsushita, T. **120**, 87
Mikhalovsky, S. **120**, 23

Nagasawa, H.T. **120**, 127
Nikolova-Karakashian, M.N. **120**, 111

Oakley, J.I. **120**, 111
Obukhova, L.K. **120**, 141

Payão, S.L.M. **120**, 57
Peterson, C.A. **120**, 45

Ricci, A. **120**, 33, 65
Richie, J.P., Jr. **120**, 127

Sabbatini, M. **120**, 33
Shoji, M. **120**, 87
Smith, M.A.C. **120**, 57

Taylor-Jones, J.M. **120**, 45
Trappe, T.A. **120**, 45

Usunoff, K.G. **120**, 77

Wallis, C. **120**, 23

Mechanisms of Ageing and Development
120 (2000) 157–158

mechanisms of ageing and development

www.elsevier.com/locate/mechagedev

Subject index of volume 120

Acetaminophen; Glutathione; Glutathione monoethyl ester; Liver; Kidney; Aging **120**, 127

Aging; Alzheimer's disease; rRNA **120**, 57

Aging; Gene expression; Human muscle; Exercise **120**, 45

Aging; Glutathione; Acetaminophen; Glutathione monoethyl ester; Liver; Kidney **120**, 127

Aging; Longitudinal study; Food intake; Swimming; Lou/c/jall rat **120**, 95

Aging; Rat; NADPH-diaphorase-positive dendritic tree; Dorsolateral periaqueductal gray **120**, 77

Aging; *Saccharomyces cerevisiae*; Budding life span; Stationary phase **120**, 1

Alzheimer's disease; Aging; rRNA **120**, 57

Alzheimer's disease; Dopamine receptors; Lymphocyte; Radioligand binding assay **120**, 65

Apoptosis; Human cells; Kinetic **120**, 23

Atrophy of the retina; Retinal aging; Senile amyloidosis; Ocular amyloidosis; Senescence-accelerated mouse **120**, 87

Budding life span; *Saccharomyces cerevisiae*; Stationary phase; Aging **120**, 1

Development; Pulmonary artery; Pulmonary vein; L-type Ca^{2+} channels; Hypertension; Rat **120**, 33

Dopamine receptors; Lymphocyte; Alzheimer's disease; Radioligand binding assay **120**, 65

Dorsolateral periaqueductal gray; Aging; Rat; NADPH-diaphorase-positive dendritic tree **120**, 77

Drosophila melanogaster; Epitalon; Ultralow concentrations; Lifespan **120**, 141

Epitalon; Ultralow concentrations; Lifespan; *Drosophila melanogaster* **120**, 141

Exercise; Gene expression; Aging; Human muscle **120**, 45

Food intake; Aging; Longitudinal study; Swimming; Lou/c/jall rat **120**, 95

Gene expression; Aging; Human muscle; Exercise **120**, 45

Glutathione; Acetaminophen; Glutathione monoethyl ester; Liver; Kidney; Aging **120**, 127

Glutathione monoethyl ester; Glutathione; Acetaminophen; Liver; Kidney; Aging **120**, 127

Human cells; Kinetic; Apoptosis **120**, 23

Human muscle; Gene expression; Aging; Exercise **120**, 45

Hypertension; Pulmonary artery; Pulmonary vein; L-type Ca^{2+} channels; Development; Rat **120**, 33

Kidney; Glutathione; Acetaminophen; Glutathione monoethyl ester; Liver; Aging **120**, 127

PII: S0047-6374(00)00229-3

Kinetic; Human cells; Apoptosis **120**, 23

Lifespan; Epitalon; Ultralow concentrations; *Drosophila melanogaster* **120**, 141

Liver; Glutathione; Acetaminophen; Glutathione monoethyl ester; Kidney; Aging **120**, 127

Longitudinal study; Aging; Food intake; Swimming; Lou/c/jall rat **120**, 95

Lou/c/jall rat; Aging; Longitudinal study; Food intake; Swimming **120**, 95

L-type Ca^{2+} channels; Pulmonary artery; Pulmonary vein; Development; Hypertension; Rat **120**, 33

Lymphocyte; Dopamine receptors; Alzheimer's disease; Radioligand binding assay **120**, 65

NADPH-diaphorase-positive dendritic tree; Aging; Rat; Dorsolateral periaqueductal gray **120**, 77

Ocular amyloidosis; Retinal aging; Atrophy of the retina; Senile amyloidosis; Senescence-accelerated mouse **120**, 87

Pulmonary artery; Pulmonary vein; L-type Ca^{2+} channels; Development; Hypertension; Rat **120**, 33

Pulmonary vein; Pulmonary artery; L-type Ca^{2+} channels; Development; Hypertension; Rat **120**, 33
